

WEB DESIGNING

CURRICULUM

1 Introduction to Web Technologies

Client and Server Scripting Languages

Difference between a Web Designer and Web Developer

Types of Websites (Static and Dynamic Websites)

Responsive design and layout

Careers in Web Technologies and Job Roles

How the Website Works?

2 Photoshop

Introduction to Adobe Photoshop

Color mode & resolution

Types of Graphics

Export image

Animated Image

Tools

Ruler and scaling

Create Logos

Photos masking

Smart Objects

- Merge Layers
- Group Layers
- Layer Styles
- Blending Options
- View Menu / Window Menu
- Filter Effects
- Image Adjustments
- Real-time Website Layout Design

3

HTML 4.0
What is Markup Language
Basic Structure of HTML
Document Overview?

- The Structure Tags
- Getting Started With HTML
- Writing the Code
- Head Section
- Meta Tags
- External Link Tags
- HTML Tags
- HEAD Tags
- Title Tags
- Body Tags
- Displaying a web page in a web Browser

4 HTML Elements

Block level elements

Inline elements

Empty elements

5 Working with Forms

Creating a Form

Form Tag

POST and GET Method

Text Input, Text Area, Checkbox, Image Input and Radio

Select Option

Option Group

File Upload and Hidden Fields

Submit Button, Reset Button

Relation between HTML Form and PHP

6 Adding Special Characters Block Oriented Elements

Defining Paragraphs and new Lines

Inserting Spaces

Perforating the Text

Changing Background Color

7

List

Ordered List

Unordered List

Definition List

8

Attributes of List

Using Type attribute with Unordered list

Using Stat attribute with Ordered List

Some other elements

Visual Markup

9

Uniform Resource Locators

Types of URLs

Absolute URLs

Relative URLs

Document-Relative URLs

Server-relative URLs

10

Hypertext Links

Why links fail?

11

Images

○ Adding Images
○ Adding Border to an image

12 Tables

○ How to create table
○ Adding Border to a Table
○ Apply Formatting Features to Table
○ Merge row and columns

13 Introduction to style Sheets

○ How style sheets work
○ Style Sheet Structure

14 Changing the Background

○ Changing the color of the text
○ Changing the front
○ Changing the Indent of the text
○ Changing the Line Spacing
○ Hide a Style Sheet

15 Creating Style Classes

○ Div

Span
Frame
Layer
Meta
HTML Frames
Frame
iframe

16

HTML5

Introduction to HTML5
Introduction to HTML5
What's new in HTML5

17

HTML5 Syntax

The DOCTYPE
The <script> tag
The <link> tag
HTML5 Document

18

New input Elements

Color
Date

Datetime
datetime-local
email
month
number
range
search
tel
time
url
week

19

New Input attributes

autofocus
form action
form method
formnovalidate
height and width
list
min and max
multiple
pattern (regexp)
placeholder
required
step

20

Audio and Video

`<audio>`

`<video>`

`<source>`

21

New Structural Elements

`<details>`

`<dialog>`

`<summary>`

`<meter>`

`<main>`

`<header>` & `<footer>`

`<section>`

`<aside>`

`<figure>`

22

SVG

What is SVG?

SVG Advantages

SVG in HTML

SVG Shapes

SVG Text

SVG Stroke properties

SVG Animation

23

Canvas

What is canvas?

Lines

Curves

Paths

Shapes

Color, gradients

Image

Arc

Text

Shadow

24

HTML5 APIs

Google Map

CSSDrag & Drop

25

CSS

CSS Introduction

CSS Syntax

CSS Id & Class

Types of CSS links

26

Colors and Backgrounds

color
background-color
background-image
background-repeat
background-position
background-attachment
background

27

Text and Fonts

font
font-family
font-size
font-weight
font-style
line-height
letter-spacing
word-spacing
text-align
text-decoration
text-transform
white-space

28

Lists

list-style
list-style-type

list-style-image
list-style-position

29

Tables

table-layout
border-collapse
border-spacing

30

CSS Selectors

Universal Selector
Type Selector
Class Selector
ID Selector
Child Selector
Descendant Selector
Attribute Selector
Adjacent Sibling Selector
General Sibling Selector
Query Selector

31

CSS Box Model

CSS Border Outline
CSS Margin
CSS Padding

32

CSS Advanced

CSS Grouping/Nesting

CSS Dimension

CSS Display

CSS Positioning

CSS Floating

CSS Align

CSS Pseudo-class

CSS Pseudo-element

CSS Navigation Bar

CSS Image Gallery

CSS Image Opacity

CSS Attribute Selectors

Styling Links

33

CSS 3.0

Introduction to CSS3.0

What's new in CSS 3.0

Border

border-image

border-radius

34

CSS Shadows

Text-shadow
Box-shadow

35

Background

background-clip
background-size
background-origin
background-image

36

Outline Transitions

transition
transition-delay
transition-duration
transition-property

37

Transform 2D Transforms

transform
matrix()
translate(x,y)
scale(x,y)
rotate(angle)
skew(x-angle,y-angle)

38

3D Transforms

transform
transform-style
perspective
transform-origin
Animations
@keyframes

39

animation

animation-direction
animation-duration
animation-name

40

Selectors

CSS combinations
Pseudo Elements

41

Gradients

Linear Gradients
Radial Gradients

42

Multiple Columns

column-count
column-fill

column-gap
column-width
columns
column-rule
column-rule-color
column-rule-style
column-rule-width

43

User Interface

resize
box-sizing
outline-offset

44

CSS Filters

Blur
Brightness
Contrast
Grayscale
Hue-rotate
Invert
Opacity
Saturate
Sepia
Drop-shadow

45

Media Query

What is Responsive Web Design

Intro to the Viewport

The Viewport Tag

Media Queries

Fluid Layouts

Tablet Styles

Mobile Styles

Making a Mobile Drop-down Menu

Responsive Images & Polyfills

46

Web Fonts

@font-face

font-family

src

font-stretch

font-style

font-weight

47

Flexbox

flex-grow

flex-shrink

flex-basis

flex

flex-wrap

- flex-direction
- flex-flow
- justify-content
- align-items
- order

48

Dreamweaver cc Interface

- choosing a workspace
- document window & toolbars
- the document window
- the launcher
- the insert panel & tool sets
- the document toolbar
- the property inspector
- dockable floating panels
- using contextual menus

49

Site Control

- defining a site
- file and folder management
- creating site maps
- using the file browser

50

Basics

defining the site
creating and saving documents
inserting images with assets panel
adding text
aligning page elements
modifying page properties
creating links with text and images
preview in browser

51

Linking

link with point to file
linking to new source files
browse for file and link history
anchor links
email links
file links
image maps

52

Typography

About Typography
Web Typography

53

Tables

insert and modify a table
fixed width tables

- relative width tables
- hybrid table
- insert tabular data
- sort table data

54

Rollovers

- simple rollovers - insert rollover
- simple rollover - swap image behavior
- multiple-event rollovers
- flash buttons

55

Cascading Style Sheets

- redefining HTML tags
- defining a custom class
- CSS selectors
- CSS selectors to group tags
- linking to external CSS
- CSS reference panel

56

Forms

- form objects
- creating a form
- creating a jump menu

57

Behaviors

set text of status bar
open browser window behavior

58

Inserting Media Objects

linking to sounds
embedding sounds
inserting flash
content inserting director content

JAVASCRIPT

59

Introduction to JavaScript

Syntax
Statements
Comments

60

Enabling in various browsers Popup Boxes

Alert
Confirm
Prompt

61

Variables Operators

Arithmetic

Assignment

Comparison

Logical

Conditional

62

Conditional Statements

if

if...else

if...else if...else

Switch

63

Loops

while

do...while

for

for...in Statement

Break

Continue

64

Functions

User-defined Functions
Function Syntax
Function with Arguments
Returning Values from Functions
Built-in Functions
parseInt and parseFloat

65

Events

Introduction
Mouse Events
Keyboard Events
Form Events
Document/Window Events

66

Cookies Page redirection Built-in Objects

Introduction
Number
Strings
Math
Arrays
Associative Array
Array Properties and Methods
Date
Boolean
Regex

67

Advanced javascript

Form Validations

Basics of Form Validation

Validating Radio Buttons

Validating Checkboxes

Validating Select Menus

Validating Textareas

68

JS Document Object Model (DOM)

Introduction

DOM HTML

DOM CSS

DOM Events

69

JS Browser Object Model (BOM)

JS Cookies

JS Window

JS Location

JS Popups

JS Time

70

Introduction to OOP concept

Jquery

What is JQuery?

Overview of JQuery features

Using JQuery links

JQuery Selectors

JQuery Events

JQueryEffects

Hide() & show()

Fade()

Slide()

Animate()

Callback function

Chaining

JQuery HTML

Get() & Set()

Add() & Remove()

CSS()

Dimensions()

JQuery Traversing

Parent() & children()

Next() & Prev()

Find()
